

Automation Partner Network

Automation systems and solutions

Complete Project Management

Systems Integrators

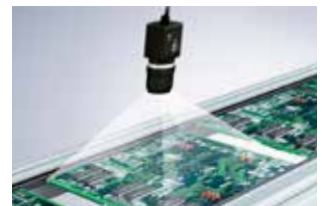

System Integrators are companies that are specialists in one or more fields and who can provide elements for a total solution. They can also provide smaller turn-key solutions.

Specialist areas include:

- Data Integration
- Vision
- PLC
- Motion
- Robotics
- HMI
- Safety
- Sensing
- Process

Markets include:

- Food & Beverage
- Pharmaceutical
- FMCG
- Automotive
- Paper / Converting

Robotics Partners

Our Robotics Partners provide assistance at every stage of your robotic solution development from conceptual design to service and support once your machine is installed.

All are committed to providing high-quality, innovative equipment that utilise our latest Sysmac solutions to help you to reduce your total cost of ownership and give you a competitive advantage.

Providing Integrated Solutions

Integrating advanced automation technology via turn-key solutions or into existing operations often requires specialist technical skills and market knowledge.

To help you to get the most from our automation technology, we have partnered with a select group of companies that are committed to delivering solutions that are tailored to your specific application, and market sector.

Authorised Partner Network

As the demands for increased levels of functionality, performance and efficiency from both machines and production facilities continue to grow, so does the need for more complex automation solutions.

By partnering with skilled reliable partners and integrators, you can be assured that your application will be engineered with quality and skill.

Our aim is to always provide sufficient information for you to choose the partner you believe is the right provider to match your needs.

Solution Partners

Solution Partners demonstrate the highest level of commitment to Omron and are also industry leaders in their chosen fields.

They offer differentiated services and solutions that complement our automation portfolio.

Solution Partners provide the following services

- Complete integration of our Sysmac Automation Platform
- Total integrated solutions
- Turn-key software and hardware solutions
